

acreage to insured units based on the number of prevented planting acres and share you reported for each unit.

(4) When the ASCS Farm Serial Number covers more than one unit, or a unit consists of more than one ASCS Farm Serial Number, the covered acres will be pro-rated based on the number of acres in each unit or ASCS Farm Serial Number that could have been planted to wheat in the crop year.

(5) In accordance with the provisions of section 3 (Report of Acreage, Share, and Practice (Acreage Report)) of the General Crop Insurance Policy (§ 401.8), you must report any insurable acreage you were prevented from planting. This report must be submitted on or before the acreage reporting date for spring-planted wheat in counties for which the Actuarial Table designates a spring final planting date, or the acreage reporting date for fall-planted wheat in counties for which the Actuarial Table designates a fall final planting date only, even though you may elect to plant the acreage after the late planting period. Any acreage you report as eligible for prevented planting coverage which we determine is not eligible will be deleted from prevented planting coverage.

(6) If the amount of premium you are required to pay (gross premium less our subsidy) for the prevented planting acreage exceeds the prevented planting liability on a unit, prevented planting coverage will not be provided for that unit (no premium will be due and no indemnity will be paid for such acreage).

#### 11. Meaning of Terms

(a) *Adequate stand*—a sufficient population of plants to produce at least the yield used to determine the guarantee.

(b) *Days*—calendar days.

(c) *Final planting date*—the date contained in the Actuarial Table by which the insured wheat must initially be planted in order to be insured for the full production guarantee.

(d) *Harvest*—completion of combining, threshing, or cutting for hay or silage on any acreage.

(e) *Irrigated practice*—a method of producing a crop by which water is artificially applied during the growing season by appropriate systems, and at the proper times, with the intention of providing the quantity of water needed to produce at least the yield used to establish the irrigated production guarantee on the irrigated wheat acreage.

(f) *Late planted*—acreage planted during the late planting period.

(g) *Late planting period*—(applicable only to spring-planted wheat acreage and fall-planted wheat acreage only where insurance is not offered for spring-planted wheat)—the period which begins the day after the final planting date for wheat and ends twenty-five (25) days after the wheat final planting date.

(h) *Latest wheat final planting date*—

(1) The final planting date for spring-planted wheat in all counties for which the Actuarial Table designates a final planting date for spring-planted wheat only;

(2) The final planting date for fall-planted wheat in all counties for which the Actuarial Table designates a final planting date for fall-planted wheat only; or

(3) The final planting date for spring-planted wheat in all counties for which the Actuarial Table designates final planting dates for both spring-planted and fall-planted wheat.

(i) *Prevented planting*—inability to plant wheat with proper equipment by:

(1) The latest wheat final planting date in the county; or

(2) The end of the late planting period.

You must have been unable to plant wheat due to an insured cause of loss which is general in the area (i.e., most producers in the surrounding area are unable to plant due to similar insurable causes) and which occurs between the sales closing date and the latest wheat final planting date in the county or within the late planting period.

(j) *Production guarantee*—the number of bushels determined by multiplying the approved yield per acre by the coverage level percentage you elect.

(k) *Timely planted*—wheat planted by the final planting date, as established by the Actuarial Table, for wheat in the county to be planted for harvest in the crop year.

[52 FR 28447, July 30, 1987, as amended at 53 FR 36781, Sept. 22, 1988; 54 FR 20504, May 12, 1989; 58 FR 33508, June 18, 1993; 58 FR 67631, Dec. 22, 1993; 60 FR 56934, Nov. 13, 1995]

#### § 401.102 The winter coverage option for wheat.

The Winter Coverage Option for wheat is available in the following counties and states beginning in the 1988 through 1994 crop years:

##### SOUTH DAKOTA

Bennett	Hughes
Brule	Hyde
Buffalo	Jackson
Butte	Jones
Stanley	Tripp
Charles Mix	Lawrence
Custer	Lyman
Dewey	Meade
Fall River	Mellette
Sully	Ziebach
Gregory	Pennington
Haakon	Perkins
Hand	Potter
Harding	Shannon
Todd	

## §401.103

The provisions of the Winter Coverage Option for Wheat for the 1988 through 1994 crop years are as follows:

FEDERAL CROP INSURANCE CORPORATION

### *Wheat Endorsement—Winter Coverage Option*

(This is a continuous Option)

Insured's Name

Address

Contract No.

Crop Year

Identification No.

SSN

Tax

In consideration of the additional premium as set by the Actuarial Table (FCI-35), the insurance provided is attached to and made part of the Wheat Endorsement subject to the following terms and conditions:

1. You must have a wheat endorsement.

2. Coverage under this option for fall-planted wheat will begin at the time of planting and will end on the spring final planting date for wheat in the county.

3. When there is not an adequate stand on the spring final planting date to produce the farm unit production guarantee, you have the option to:

a. Continue to provide sufficient care for the insured wheat crop through harvest;

b. Replant all destroyed acreage to a spring variety of wheat and receive a replanting payment in accordance with subsection 9.h. of the general crop insurance policy and subsection 6.b. of the wheat endorsement; or

c. Accept our appraisal of the production to count, destroy the remaining crop on the acreage and be paid any indemnity due under the terms of the general crop insurance policy and the wheat endorsement.

4. In case of damage to the wheat under this option, you must provide us with written notice prior to the spring final planting date for wheat.

## §401.103 Barley endorsement.

The provisions of the Barley Crop Insurance Endorsement for the 1988 through the 1994 crop years are as follows:

## 7 CFR Ch. IV (1-1-00 Edition)

FEDERAL CROP INSURANCE CORPORATION

### *Barley Endorsement*

#### 1. Insured Crop

a. The crop insured will be barley planted for harvest as grain. A mixture of barley with either oats or wheat or both planted for harvest as grain may also be insured if provided by the actuarial table. The production from such mixture will be considered as barley on a weight basis.

b. In addition to the barley not insurable in section 2 of the general crop insurance policy, we do not insure any barley:

(1) If the seed has not been mechanically incorporated into the soil;

(2) If the seed is planted where an established grass or legume exists unless we agree, in writing, to insure such barley; or

(3) Destroyed or put to another use in order to comply with other U.S. Department of Agriculture programs.

#### 2. Causes of Loss

The insurance provided is against unavoidable loss of production resulting from the following causes occurring within the insurance period:

a. Adverse weather conditions;

b. Fire;

c. Insects;

d. Plant disease;

e. Wildlife;

f. Earthquake;

g. Volcanic eruption; or

h. If applicable, failure of the irrigation water supply due to an unavoidable cause occurring after the beginning of planting;

unless those causes are excepted, excluded, or limited by the actuarial table or section 9 of the general crop insurance policy.

#### 3. Annual Premium

a. The annual premium amount is computed by multiplying the production guarantee times the price election, times the premium rate, times the insured acreage, times your share at the time of planting.

b. If you are eligible for a premium reduction in excess of 5 percent based on your insuring experience through the 1984 crop year under the terms of the experience table contained in the barley policy for the 1985 crop year, you will continue to receive the benefit of the reduction subject to the following conditions:

(1) No premium reduction will be retained after the 1991 crop year;

(2) The premium reduction will not increase because of favorable experience;

(3) The premium reduction will decrease because of unfavorable experience in accordance with the terms of the policy in effect for the 1985 crop year;
